For Immediate Release

Calumet, MI

#### Calumet Electronics Announces POWER-GEN Exhibit

Calumet Electronics is pleased to announce the presentation of its POWER-PCB manufacturing methodology at Booth 339 at the POWER-GEN International Show, December 2–4, 2008, at the Orange County Convention Center, Orlando, Florida.

POWER-GEN International is the industry's fastest-paced, three-day information exchange designed to share practical experiences, knowledge and ideas on the latest power industry trends and challenges. Calumet, one of North America's leading manufacturers of high performance printed circuit boards, will present its Mission-Critical Manufacturing™ system along with design for reliability considerations for power PCB applications. Individual consultations are available on request by scheduling an appointment using the contact information below.

#### *About Calumet:*

Calumet Electronics enters its 40th year of manufacturing hi-reliability printed circuit boards. Every board is proudly built in the security of its Calumet, MI, USA facility. The company is registered as a Small Business by the SBA and a certified HUBZone Enterprise. Financial strength is continually rated at 4A1 by D&B. Product realization is achieved within a quality system registered to ISO9001:2000 and certified by the Department of Defense to Military Performance Specifications for Printed Circuit Boards; MIL-PRF-31032 and MIL-PRF-55110. There is a difference in levels of quality and customer satisfaction. The difference between good enough and optimum defines product value and customer relationships. Corporate focus hasn't changed in 40 years; provide optimum value in every board and to every relationship! At 40, Calumet remains committed to providing value and to making the difference!
